

Quantity Surveyor – B Sc Quantity Surveying plus minimum 3 years' experience as QS in building construction

Seeking a site QS to ensure construction projects are financially controlled and losses minimized.

This is an exciting opportunity for someone with the necessary tertiary qualifications to step-up from their current entry level position and to take full responsibility of all QS functions on a construction building site.

Requirements:

*B Sc Quantity Surveying degree, COUPLED with at least 3 years' experience in a building construction environment.

*Experience must be gained in a construction site environment of multi-level commercial, residential - specifically apartment blocks, and retail buildings. Experience gained as PQS or in a Civil environment, for e.g., Road- and Waterworks, are not applicable to this position.

*A completed Hons in Building Science/OS COUPLED WITH the site QS experience will be an added advantage.

Duties:

*On site QS functions

*Financial planning, control and reporting

*Appointment of subcontractors

*Material management

*Administration.

This position reports directly to the Commercial Manager.

If you meet ALL the requirements, you welcome to apply by forward your CV to hr@remey.co.za indicating in the subject line – **QS Position**
