

Senior Site Agent – 4 levels and up, multi storey buildings

Seeking a Senior Site Agent with strong leadership skills, formal tertiary qualification, in-depth construction knowledge and proven building experience for the construction of multi-level (4 levels and higher) buildings. Reporting to the off-site contracts' director, the Senior Site Agent will be the responsible person on-site for entire large scale, high value projects from start to final hand-over and beyond.

Duties includes (but not limited to):

- *Interpreting the architectural building plans, allocating project time line, planning of all phases and activities, and execute into construction actions.
- * Project time management and planning.
- * Material and plant management.
- * Quality control and assurance.
- * Allocating resources
- * Controlling cost and budgets of projects.

Requirements:

***Minimum formal qualification: Must have at least a B Tech in Building Construction, ideally a BSc in Construction Management.**

Your formal qualification must be coupled with at least 6 years proven construction experience in a managerial role. Your experience must entail independently managing large scale, multi-level (minimum 4 levels), upmarket projects with a construction team of senior foreman, foreman, leadinghands and labourers reporting to you.

***High work standards and detail orientated in line with the luxury high end sector.**

***Must have a stable career history**

***Excellent organisation abilities and excellent communication skills**

***Diligent and accountable**

***Self-assertive**

***Excellent problem assessment and solving abilities**
